June 1, 2020

Concept Map

CNN- How it works?

Figure: Convolutional Neural Network [Sha19]

Common deep networks architecture

| COMPARATIVE FOR COMMON DEEP NETWORK ARCHITECTURES | | | |
|---|-----------------------|------------------|----------|
| Network | Year champion ILSVRC* | Number of Layers | Accuracy |
| AlexNet | 2012 | 3 | 84.6% |
| VGG | 2013 | 16 | 92.7% |
| GoogleNet | 2014 | 22 | 93.3% |
| ResNet | 2016 | 152 | 96.4% |

Table: Deep network architectures. [GGEO+18]

*ILSVRC (ImageNet Large Scale Visual Recognition Challenge)

Methods to image analysis

(a) Image classification

(b) Object localization

(c) Semantic segmentation

(d) Instance segmentation

Figure: Methods to image analysis. [LMB⁺14]

Evaluation Metrics

Execution time

Memory footprint

Accuracy

Accuracy

Figure: Accuracy evaluation. [Ros16]

Accuracy results

| COMPARATIVE ACCURACY RESULTS (METHODS AND DATASETS) (%) | | | | | | | | | |
|---|-----------------|---------------------|--------|------------|---------------------|----------|-------|---------------|-----------------|
| Method / Dataset | PASCAL VOC-2012 | Pascal- Person-Part | CamVid | CityScapes | Stanford Background | SiftFlow | SUN3D | ShapeNet Part | Youtube-Objects |
| PSPNet | 85,4 | | | | | | | | |
| DeepLab | | 64,94 | | | | | | | |
| DAG-RNN | | | 91,60 | | | | | | |
| rCNN | | | | | 80,20 | | | | |
| LSTM-CF | | | | | | | 58,50 | | |
| PointNet | | | | | | | | 83,70 | |
| PointNet++ | | | | | | | | 85,10 | |
| DGCNN | | | | | | | | 85,10 | |
| Clockwork Convnet | | | | | | | | | 68,50 |
| SegmPred | | | | 59,40 | | | | | |

Table: Accuracy results for the most relevant methods and dataset. [GGEO⁺18]

Limitations

Advantages and disadvantages

Wich cases doesn't apply deep learning?

Dataset size it isn't enough.

Not sure about the object.

Deep learning vs. Classic methods
